

Tiny Santa Monica Ranks #2 Most Moved To City!

North Star Moving studied the 2015 moving season. They compiled the top 5 cities moved to in LA and Orange Counties. *Tiny* Santa Monica outpaced every surrounding city except LA - cities *much larger* that we are.

1. Los Angeles (503 sq. miles)
2. **Santa Monica (only 8 sq. miles)**
3. Pasadena (23 sq. miles)
4. Irvine (66.45 sq. miles)
5. Northridge (9.47 sq. miles)

But despite resident protest, our elected officials continue to insist on maximum height and density. Instead of open green space, realistic parking and reasonable height, Council moved forward on the 2.5 acre 148ft tower at 4th/AZ and they continue to approve 5-7 stories with minimal parking all along Lincoln and Broadway. **Wilshire will be next.**

I hope no one still believes we have a "slow growth" City Council.
